Do you appreciate getting repairs when you want them? My business policy is to give unexcelled repair service on the machinery I handle.

**C. A. GILDERS,**

OYEN

ALBERTA

## Locals And Personals

Mrs. R. Beckett and family left on Thursday last for Sibbald, where they will reside. Mr. Beckett is in the harness and shoe business at that place.

Corp. Merton Cates, who has been serving overseas for the last three years, arrived home last Wednesday.

The Oyen Billiard Hall are inaugurating a Grand Elimination Tournament in English Billiards for which they are donating as a prize to the winner of the final contest, a fine English Billiard Cue. Names are being entered now. There is no fee for entry. The usual rate for tables being the only charge for taking part in the tournament. Get your name in early.

Ed. Collinge sold the Oyen Livestock barn last week to Jack Shields.

Pte. M. Timmons, who has been serving with the Canadian Field Engineers in France since June, 1916, returned last week.

Gillespie & McDonald have unloaded a car load of Chevroletlets including one new model Baby Grand.

Pte. Horace Musgrove left last week for Calgary, where he will undergo medical treatment. Pte. Musgrove was wounded with shrapnel while on active service in France, and about a week ago his wound broke out again.

Bernard G. Young, who has just returned from overseas, is visiting relatives in Oyen.

Chas. A. Young, who has been spending the winter in the States, returned last Wednesday morning.

A woman whose husband had died leaving her \$2000 life insurance, reported the sad news to her relatives thusly: "Jim died this week. Loss fully covered by insurance."

A. Gibson, who has been on a business trip to Calgary and other points west, returned last Thursday.

Olaf Bakke, who has been ill in the Oyen hospital, is now recovered and back at work.

The Oyen Lodge of the Independent Order of Oddfellows will hold their Hundredth Anniversary Service in the Union church, Oyen on Sunday next, April 27th at 7:30 p.m. There will be a special service for the occasion and a hearty invitation is extended to everybody to attend the service. The members of the Order are requested to meet at the Masonic hall at 7 p.m.

What do you think of a man who will at the table tell the Lord he is thankful for the things before him, but as soon as he says "Amen," will begin storming about the cooking?

Swenson & Lee now agency together with the big advertising campaign may bring results but the co-operation of the weather man is almost a necessity to make their efforts a success.

Telephone poles are now in Alask. for the long distance phone from Alask to Oyen.

Miss L. M. Smith spent the weekend in Calgary.

The Sunday school classes of Mrs. Finlay's Mrs. Alexander's and Mr. Harvey Johnson's will hold their social evening in the Union church, Friday, April 24 at 7:30.

## OYEN POLICE COURT

Harry Slenskey, of Chillmark, appeared before Justice Robinson at the Oyen police court last Thursday, charged with breaking into a shack and stealing a number of articles belonging to Mr. Frank Osmond. The accused was also charged with breaking into the shack of E. C. Fink and stealing two watches.

Investigations of the Provincial Police resulted in finding most of the stolen property buried in a gopher hole on the prairie.

The accused was committed to the provincial jail at Lethbridge to await the next sitting of the Supreme Court held at Calgary, where he will be tried on the above charges.

## Advertise! Advertise!

Every little while The News points out to its readers the great benefit of advertising.

Every little while fresh evidence of our contentions crops up. Swenson and Lees have launched a publicity campaign and they start off by having a half page add in this issue of The Oyen News.

## WEDDING

JOHNSON—BOND

A quiet wedding was solemnized on Saturday, April 12th, at the Trinity Methodist Parsonage, when Miss Josie Bond, of Medicine Hat, became the bride of Mr. Harvey C. Johnson, of Oyen. Both Mr. and Mrs. Johnson are well known in this district and have the best wishes of a large circle of friends.

## TWENTY-SIX MONTHS A PRISONER IN GERMANY

Pte. Jimmy Davidson, of Arad, Valley, who has recently returned from overseas, tells some harrowing tales of his twenty-six months as a prisoner in Germany.

He enlisted with the 49th Battalion and went overseas in the spring of 1916, and was taken prisoner at the Somme battle and sent to a German prison camp, where he was detained until the day the armistice was signed. Pte. Davidson was put to work in a coal mine, and had to pick all day in a drive only four feet high, where it was impossible to stand up straight, with a German officer on guard. "That was not the worst," he said, "we were both starved and badly treated." How would you like a diet of yellow turnip soup and black bread three times a day? This was Pte. Davidson's diet during his imprisonment. Many times when he was too weak to get his allotted amount of coal, he was badly beaten up by the guard. He gives as one instance of the brutality of the Germans, a case of a French prisoner near him, who put his arm up to protect his head from the blows of a German officer. The officer immediately pulled out his revolver and shot the Frenchman dead. One of the many hardships which they had to endure was the scarcity of soap, and the filthy state in which the prisoners got into was too awful for words to describe. Pte. Davidson said that when he arrived in England after his release he was so weak he could hardly walk.

## Garden Seeds and Flower Seeds

The Oyen Billiard Hall

## DID YOU EVER

Did you ever take a jaunt through the back lanes of this little town of ours? You can tell more about the inhabitants of a town by a trip through the back alleys than many persons imagine. Some of the back yards are neat as pins, while others put an old brush fence hog to shame. We are glad to say that the latter are few and far between. Sometimes both front and back yards show the utmost care and attention and it is hard to tell which is the cleaner. Don't let us neglect to clean both back and front yards. If the back or front yard must be neglected, let it be the front one. Don't try to present a Queen Ann front with a Mary Ann back. An ill-kept back yard is dangerous and a menace to good health.

## THE STEADY SUBSCRIBER

"How dear to my heart is the steady subscriber, who pays in advance without skipping a year, who takes out his dollars and offers them gladly, and cast round the office a halo of cheer. Who never says 'Stop it, I cannot afford it,' or 'Getting more papers each day than I read.' But always says 'Send it, the ranch outfit like it; in fact we regard it as an absolute need.'"

## MUNICIPAL DISTRICT OF GOLDEN CENTRE

The second meeting of the council of the Municipal District of Golden Centre was held at Sec. 13-20-5 on Wednesday, April 2, 1919. Members all present except Reeve Garbutt. Minutes were read and confirmed, and correspondence disposed of.

Department of Municipal Affairs was advised it was necessary to hold meeting in January and February to exact seed grain and hall insurance bylaws, and asked to make those meet- ings back.

Following accounts were paid: Louis Greene (house), wires, express via popper poison, Ad. Garbutt) ..... \$24.63 Cop Hill S. D. .... 300.00 Lindellville S. D. .... 20.00 Weniger Heights S. D. .... 70.00 W. Forbes (register), searches 154.00 Ralph Greene (salary, Jan., Feb. and March) ..... 254.00 U. A. Morrison (popper poison) 1111.50

Fellion was presented asking for roadway on north side of sections 15 and 14-20-5.

Department of Public Works was requested to survey a roadway.

Reeve Garbutt was empowered to sign checks in absence of Reeve Garbutt.

Bylaw No. 17, a bylaw to repeal Bylaw No. 37 was read a third time and adopted.

Bylaw No. 15, a bylaw to bring the municipal district under the operation of the Municipal Hall Insurance Act, was read a third time and adopted.

Council adjourned to meet on Wednesday, May 14, 1919.

## TYING ON THE RIBBONS

There are hundreds of bright girls in Canada who are dreaming of careers for themselves—only dreaming. And yet the dream persists in coming back again and again. Must it always be only a dream? For most girls the answer is "No."

Nothing truer was ever said than that where there is a will there is a way. The girl who is worthy of having her dream come true will find a way to accomplish her ambition. She will not necessarily run away from conditions imposed by duty or hard circumstances but she will never lose sight of the vision of herself as artist, doctor, lawyer, teacher, scientist—whatever she means to become. And she is exactly the kind of girl who will slip away the pennies, earn them in countless quiet ways and buy not only Thrift Stamps with every quarter saved but will purchase more than one War Savings Stamp—putting in four dollars and drawing out five at the end of five years.

How many will she need to put herself through one year at college? At the end of that time she can earn more than ever and go back to tie the ribbon on her diploma.

FOR SALE—One Humbley 15-30 Gas pull engine, and five bottom Humbley engine gang plow, breaking and stubble combined, with twenty two shares. A practically new outfit. Will take cattle as part payment. Harry McDonald, 2 miles north of Oyen.

# WALLIS

## America's Foremost Tractor.

The Wallis won the title "America's Foremost Tractor" by ending needless power waste.

Where the ordinary tractor uses about half its own self, the Wallis uses only one fourth. Thus, the Wallis delivers about 40% more farm power at the draw bar than other tractor motors of the same belt power.

It is also significant that the Wallis weighs 1000 to 2000 pounds less than other tractors of equal draw-bar pull.

This means much less fuel per acre—greatly lessened cost of plowing per acre—in a word true economy of operation. And economy is the only basis on which to buy any farm machine. To produce a tractor of the Wallis class, many advanced ideas in regard to material and design, had to be introduced.

One is the Wallis 'U' frame—a simplified construction which did away with much needless weight.

Another is, completely enclosed gears, including the final drive. This reduces friction and protects the tractor from sand, dirt, etc.

The motor, too, is a distinctively a Wallis feature. In quality of material, design and workmanship it is comparable to the best aeroplane motor. This motor keeps cool under working conditions that would "burn up" the average motor.

There are many other distinctive Wallis ideas in this tractor—all of which are described in the latest Wallis catalog.

Send for it. Learn all about America's Foremost Tractor; and how it gained leadership.

We have one of these Tractors in stock. If you are interested, call and inspect it.

### Choice Farm Lands For Sale

## Apply Local Land Agents--SWENSON & LEES

### For Canadian National Railways

We wish to announce that the appointment for this district has been made as above. Any listings entrusted to our care will receive more publicity, and be brought to the notice of more prospective settlers, than through any other medium we could employ.

Head Offices for this special work are established at Winnipeg, Toronto and Chicago, with agencies throughout the length and breadth of the North American Continent.

Whatever information we submit regarding crop conditions, weather conditions, or available lands, either improved or unimproved, will reach every agency, thus you will see the great advantage of placing your listing in our hands.

At the present time we are obtaining particulars from some of the successful farmers, of this district together with photos that may be considered of interest. This information will every reach agency of The Canadian National Railways in booklet form.

As the Head Office in Winnipeg informs us that they look for a big immigration after seeding, we are now revising our listing file; so if you wish to participate in our publicity campaign let us have your listing immediately.

We predict for The Oyen District, good substantial results from this source, and our policy will be as in the past, that is:—"We never guarantee to sell your land but we DO assure you our best efforts."

# Help the Y.M.C.A. Finish its Work For Soldiers

Help the "Y" Construct the Manhood that will Re-construct Canada

ALL the world now knows that the Red Triangle of the Y.M.C.A. was the "Sign of Friendship" to thousands of your brothers, sons, nephews, cousins and neighbours' boys in the last four and a half years. Wherever the Canadian Soldiers went, the "Good old Y" went too. And now it is coming back home with them!

For the support which has made possible the war work of the Y.M.C.A. we thank you. Your money has been well expended. We have rendered full account.

We ask now your continued sympathy and support for Red Triangle Service for our Soldiers during demobilization, and for Y.M.C.A. work for Canada generally during the Reconstruction period. The Annual Red Triangle campaign will be held throughout Canada May 5th to 9th, 1919. The objective is \$1,100,000.

The Y.M.C.A. will keep its chain of Service subgen in the end.

## For Our Men Returning

For the soldiers and their dependents, returning from Overseas, we have provided as follows:—

1. A Red Triangle man on board every ship which leaves Great Britain, with a full equipment of games, gramophones and records, music letters, literature, etc. Where possible, also a piano or an organ. Lectures, concerts, sing songs, instruction in Government repatriation plans, and Sunday services.
2. Red Triangle comforts and facilities for the men on arrival at Halifax, St. John, Quebec and Montreal, including coffee stalls, with free drinks, free canteens, cigarettes, candies, etc.
3. Red Triangle men on every troop train to provide regular free drinks, establish and organize games and sing songs, and furnish information.
4. Red Triangle free canteen service in the principal cities of Canada, at each of the 22 Imperial centres in Canada.
5. Red Triangle Clubs in the principal cities of Canada, in the shape of large Y.M.C.A. hotels to furnish food and board at low rates and to be a rendezvous for soldiers.
6. Seventy-five Red Triangle service in military hospitals, camps and barracks throughout the Dominion.
7. Thirteen Red Triangle service in full Y.M.C.A. privilege for the soldiers and their dependents.

In addition to the work for the returning soldiers, we have to maintain the Red Triangle service to the full for the soldiers in Siberia, as well as the work for special centers in Northern Russia, Palestine and Poland.

## For Canada's Manhood

The Reconstruction program of the Y.M.C.A. includes the following vitally important developments:—

1. An increased service to 300,000 teenage boys in the Dominion—the development of Canadian youth, military training, Bible Study group, summer camps, conferences, service for High School boys, for working boys, in the towns and cities for boys on the farm and for boys everywhere, who have lacked opportunity for mental, moral, physical or social development.
2. Inauguration of Y.M.C.A. work in the country, and the smaller towns and villages lacking Association buildings and equipment, on a plan of county organizations. This will include the establishment of Red Triangle centers for moral, mental and educational work among boys and men, in co-operation with the churches.
3. The promotion of Y.M.C.A. work among Canada's army of workers in industrial plants, both in Y.M.C.A. buildings and in the central buildings, organizing the social spirit among the industrial workers of our cities by means of amusements, games and sports.
4. The establishment of the Red Triangle in isolated districts where Canada's youth and men are scattered.
5. Besides the special fields of increased activity for 1919, we have to provide for our own work among soldiers, men, college students and for our own work among the youth and men of our country. We place the fundamental foundation of manly Christianity.

Canadian  
**Y.M.C.A.**  
Red Triangle Campaign  
\$1,100,000 May 5 to 9  
Canada-wide Appeal

## Y.W.C.A.

For the wives and children of our soldiers, dependent upon Canadian soldiers, and for Y.W.C.A. work in Canada generally, a sum of \$175,000 from the Red Triangle Fund will be set aside for the Dominion Council of the Y.W.C.A. which is caring for the soldiers' wives and children, and their life on the home front, from Liverpool to Canada, and is also extending its work for Canadian girls.

For their take also be generous when you make your contribution.

FOR the sake of our victorious soldiers and their dependents, and the happiness of their home-coming; for the sake of our future citizens, our teenage boys; for the sake of rural life in Canada; for the sake of the social betterment of the toilers in factory and workshop; for the sake of lonely men and boys in our industrial forests; for the sake of Christian Society and Canadian manhood—we appeal to you. Give us your contribution, little or big. Be as generous as you can.

Hand your contribution to the fundraiser when he calls, or if you live where it is difficult for him to call, send it by check, money order or registered letter to the National Treasurer, Red Triangle Campaign, 120 Bay Street, Toronto.

## Please Note:

We are not asking for money to carry on our work Overseas, with the Army in Great Britain, France or Belgium. Our work will continue at its maximum for some months, financially provided for by the legislation of the Overseas, and will not terminate till the last man has sailed for home.

## National Council, Young Men's Christian Associations of Canada

The Red Triangle Campaign is being conducted under the distinguished patronage of His Excellency, the Duke of Devonshire, K.G., G.C.M.G., G.C.V.O., P.C.

Home Campaign Chairman:  
JOHN W. ROSE, Montreal

Campaign Chairman:  
G. HERBERT WOOD, Toronto

Campaign Treasurer:  
THOMAS BRADSHAW, Toronto

Campaign Director:  
CHAS. W. BRIDGES, Toronto

## QUALITY IN OUR FIELD CROPS

Quality of Crop in Field Is Determined by Condition of Seed Bed

(Experimental Farms Notes)

The attainment of quality in the "worth while" of farming. Livestock, the best of their breed, well fed and thrifty; fruit, large of size, rich in colour and flavour; crops, vigorous, free from weeds, productive and pure of variety, these things represent "quality," and its attainment should be the goal of our farming ambitions.

As applied to field crops, it has to be considered in two ways, first the quality of the standing crop, second, the quality of the threshed grain. The quality of the crop in the field is determined by the state of the soil and the fertility of the seed bed in it at the time of sowing, and by the care given to the selection and cleaning of the seed previous to sowing. Quality in the threshed grain is determined largely by the same factors. Vigor-

ous plants are essential for the production of large, plump grain, and these can only be produced in a well tilled fertile seed bed, and by a vigorous variety which is the product of careful breeding and selection. The purity and uniformity of a variety can be maintained only by consistent selection through the medium of the seedling and the fanning mill.

To produce quality in our crops at attention must be given to all the factors of breeding and selection. The way will result in a crop inferior in appearance, yield and reproductive power.

Barring weather injury, quality and yield go together. Large yields per acre generally go hand in hand with grain of beautiful appearance and uniform excellence, and vice versa. The farmer who receives generous remuneration for his labour, but what he will find his greatest reward not only in increased yields and larger profits, but in the satisfaction that attends the application of intelligent and concentrated effort.

**Pulp and Paper Statistics for 1917.**  
A report giving the statistics of the pulp and paper industry for 1917 has been completed under a co-operative arrangement between the Dominion Bureau of Statistics and the Forestry Branch of the Department of the Interior. Some figures from this bulletin will show the rapid growth of the industry which is vitally dependent upon our forests. In 1915 the number of active pulp and paper mills was 40, and the value of the product in round numbers forty million dollars, while in 1917 these figures had increased to 53 mills with a total product valued at 1,405,836 cords of pulpwood were consumed for the making of pulp while in 1917 this amount had grown to 2,104,334 cords, or an increase of nearly 50 per cent. The export of pulp wood also rose from 47,714 cords in 1916 to 1,017,554 cords in 1917. The number of wage earners employed in the mills increased from 14,177 in 1916 to 21,460 in 1917, an increase of slightly over 50 per cent, while wages had increased from ten and a half million dollars in 1916 to over twenty million dollars or 84.6 per cent.

## PEOPLE OF GREAT BRITAIN AND U. S. STILL SAYING THOUGH FIGHTING IS OVER.

The people of the leading Allied countries, who, under the pressure of the war, have shown no marked tendency to discontinue since the actual fighting ceased. In the United States the per capita sales of War Savings and Thrift Stamps during December were about 88 cents.

In the United Kingdom during the week ending January 1, 1918, 310,380 War Savings Certificates were sold. More than 50,000 buyers took single or 5 Certificates. In a recent statement the National War Savings committee of the United Kingdom says:— "These figures prove that while a number of investors, including many wealthy people by larger donations, the small investor, for these certificates were primarily issued, continues to respond week by week, and five years hence will be the benefit of the movement, which, originating through patriotic motives during the war, has found its place in supplying the financial needs of ordinary people."

## NEW BOOKS AT DEPT. OF EXTENSION LIBRARY

Among the new books recently added to the open shelf library of the Department of Extension the following are of special interest at this time: "The Education of the New Canadian," a treatise on Canadian education, the greatest educational problem, by J. T. M. Anderson, inspector of schools, Yorkton, Saskatchewan. "The Clash," a study in nationalities, by William Henry Moore. "The Bulwarks of Peace," by Herbert L. Hart. "The Great Peace," by H. H. Powers. "Building a New World," an outline for the discussion of the Christian issues involved in the winning of the war and in the establishment of world democracy, by Harrison S. Elliott. "The Meaning of Reconstruction," by "Demos." "The Six-hour Day and Other Industrial Questions," by Lord Leverhulme. "The Ethics of Co-operation," by James H. Tufts. "Labour and Economics," by Frederick Mills. "Labour in the Commonwealth," a book for the younger generation, by G. D. H. Cole. "The Meaning of Industrial Freedom," by G. H. D. Cole and W. Mellor.

These books may be borrowed by any individual in the province. The only charge for the use of them is the payment of postage both ways.

## ALBERTA'S MEN, WOMEN AND CHILDREN CONCERNED

It is not the big fellows who are going to count in the War Savings campaign so much as the average citizens and in this case the average citizens' men, women and children to whom 25 cents and \$4.00 are tangible and not negligible amounts. Every cent and every dollar that Canada can scrape together will be required for the extension of farm operations, the financing of crops, the development of resources, the building of railways, the establishment of industries, caring for disabled soldiers and their dependents and for the widows and orphans who have lost their lives for their country. These things are not things that can be gathered together by the handful. Every cent that can be gathered together and the more that is gathered the more Canada, and especially Alberta, will benefit. This is outside the question of the attractiveness as an investment of the Thrift and War Savings Stamps. Every Alberta citizen when he and she realizes the importance of supporting the Thrift campaign, will back it with a hundred per cent efficiency. The great thing is to get them to know know how important it is to everybody the movement is. Let everyone who knows how essential the campaign is preach the gospel.

## FEEDING POULTRY

When feeding corn to poultry it should not be forgotten that when using the whole grain fowls can readily obtain a full meal with very little exercise. This is detrimental to egg production inasmuch as birds are apt to become too fat. It is much better to have the corn cracked and scattered in the litter so that the flock will have to work for it. Oats when fed whole are not eagerly eaten unless prepared in some way. A new oat called "Liberty," originated at the Central Experimental Farm, and now being introduced into public use, thrushes out free from hull, and thus offers a special value in poultry feeding. These points are brought out in a recently issued bulletin of the Department of Agriculture, Ottawa, which deals fully with poultry feeds and feeding. It takes up the balance of native grain, by-products, green foods, animal foods and mineral foods, and tells how to combine them in the feeding of hens, turkeys, guinea fowl, ducks and geese.

## Dates of Agricultural Fairs on the Goose Lake

are as follows:  
Saskatoon—August 2.  
Ottawa—August 4 and 5.  
Richmond—August 6 and 7.  
Chinook—August 8.  
Edmonton—August 11 and 12.  
Hanna—August 13.  
Weyburn—August 14.  
Moose—August 16.

Arrested at Lethbridge for Murder Edward Rottler was apprehended by Lethbridge police on Monday morning for murder in North Dakota.

## GREAT PROSPECTS IN THE WEST

The settlement of new districts in the west has created a large number of openings for merchants and tradesmen and these opportunities appear to be on the increase, according to reports received by local Canadian National agent from the Industrial and Resources Department, Winnipeg. There is a demand for almost every line of trade and calling in prosperous farming districts from Rainy River to the mountains. There seems to be a particular call for doctors and druggists, and especially for doctors who are not unwilling to combine the drug business with the practice of their profession. Barbers, blacksmiths, dairymen, shoemakers, lawyers, bakers and music teachers will also find a business waiting for them in good localities. Openings for small saw mills, box factories, creameries, these factories, garages, general and other businesses, implement agencies and hotels and boarding houses are also reported by almost every mail. A letter addressed to the Industrial and Resources Department of the Canadian National Railways at Winnipeg will bring a reply as to where there are excellent openings.

## "THE GLORIOUS PRIVILEGE"

The next big task is to place Dominion trade full on its feet. Talk of making trade normal again will not do. To go back to what was normal before the war would lead to sheer national bankruptcy.

Dominion war debts have gone up roundly to one and a half billion dollars. The per capita debt in 1914 was \$40; today it is \$220. Included in this is a sum that we have to remit to foreign countries considerably over half a million dollars a day.

Larger exports chiefly will bring in more money, because in the last term exports alone pay for imports.

Hand in hand with this should go less buying abroad of those things we can produce in field and factory in Canada. Over \$400,000,000 a year is spent on imported goods, with a little extra for shipping charges.

The Canadian Trade Commission abroad is in a position of indifference to our financial position. It declares that the country must organize its peace trade on a war time scale. In securing foreign orders the old competitive system must give way to co-operative methods. Business men must act together to go to the outside trade and then subdivide it among their factories in the way which makes for the best interests of our own people. It is a steady employment for fifty-two weeks in the year to all who are willing to undertake a full day's work for a full day's pay.

Let everyone in the Dominion take up the slogan "Buy Canadian-made Goods" to redeem Canada's financial obligations. It is for the glorious privilege of being independent.

## THE WALLIS TRACTOR

Denton Bros., Benton, Alta.

Dear Sirs: In answer to yours of the 13th inst., and in reply I would be glad to tell you that I have bought a Wallis Tractor on the 15th October last and it did not take me long to get it right away. It was late in the season so I did not use it for anything but ploughing and it did not take me long to get it right away. I ploughed 75 acres at a depth of five inches, pulling three ploughs and a harrow, averaging an acre an hour, with power to spare.

I might say I used 105 gallons of kerosene at 24 cents per gallon on the 75 acres and three gallons of lubricating oil to every ten acres. The amount of gasoline used varied according to the weather, but averaged half a gallon per day. Thus the cost of ploughing and harrowing works out to less than 50 cents per acre.

The country here is rolling and the soil medium heavy. The engine climbed most of the hills on high speed and always had low speed for emergency.

I have been working as well as any engine I have ever seen, as shown by the small amount it uses.

In conclusion I wish to say that the Wallis tractor is all that it is represented to be, and I am well satisfied with it.

Yours respectfully,  
(Sgd.) WALTER HELME,

# Haig Tells How Victory Was Won

London. — Field Marshal Sir Douglas Haig in his first dispatch, just made public, presents a view in detail of the expansion and achievements of the British army, with many remarkable facts and figures. He treats the operations of the western front as a single continuous campaign, in which can be recognized the same general features of necessary stages, that, between forces of approximately equal strength, have marked all the conclusive battles of history.

"The high water mark of our fighting strength in infantry," says the British commander, "was only reached after two and a half years of conflict, by which time heavy casualties had already been incurred. It was not until midsummer, 1916, that the military situation became even approximately adequate to the conduct of major operations."

During the Somme battle, artillery ammunition had to be watched with the greatest care. During 1917, ammunition was plentiful, but the gun situation caused anxiety. It was only in 1918 that artillery operations could be conducted without any limiting consideration beyond that of transport.

"The margin with which the German onslaught of 1918 was stemmed was so narrow, and the subsequent struggle was so severe that the word 'miraculous' is hardly too strong a term to describe the recovery and ultimate victory of the allies."

"The breakdown of Russia in 1917 probably prolonged the war by a year, and the military situation in Italy in the autumn of 1917 necessitated the transfer of five British divisions to Italy at a time when their presence in France might have had far-reaching effects."

Sir Douglas records the interesting fact that more than half the British casualties in the fighting of 1918 occurred during the five months from March to July, when the allies were on the defensive.

"The rapid collapse of Germany's military powers in the latter half of 1918," he says, "was the logical outcome of the fighting of the previous two years. It would not have taken place but for that period of ceaseless action which used up our German reserves. It is in the great battles of 1916 and 1917 that all have to seek for the secret of our victory in 1918. The value of cavalry in the modern war is emphasized by Sir Douglas Haig, and in discussing the value of mechanical contrivances such as tanks, he observes that, immense as their influence might have been, they could not by themselves decide a campaign. Their true role is to support infantrymen by whose rifles and bayonets only can decisive victory be won."

The expansion of British personnel, artillery, ammunition, transport, railway construction and establishments of every kind in 1918 was dwelt upon by the field marshal. Regarding machine guns, the British equipment increased from 35,000 in 1914 to 140,000 in 1918. In 1914, twenty infantrymen in 1916. The 486 pieces of artillery, with which the British took the battle of Cambrai, represented at the date of the armistice by 6,437.

On the first days of the Somme battle of 1916, nearly 11,000 tons of

## Hungary Can Pay Debts

Paris. — The mission to Hungary headed by General Jan Christian Smuts, has reported on the prospect of the payment by Hungary of her debts. The impression gained by the commission, the report stated, was that there might be some chance of adjustment through friendly negotiations. Otherwise, it was added, it was difficult to see any chance whatever.

Artillery ammunition were fired by the British on the western front. On two days, September 20 and 21, 1917, 40,000 tons were expended, and in the three days of the crucial battle on September 27, 28 and 29, 1918, nearly 65,000 tons were fired by the British artillery.

Sir Douglas says that the feature of the war, which to the historian may well appear most noteworthy, is the creation of the new British army, which was successfully built up in the very midst of the war.

"The total of more than 327,000 German prisoners captured by us on the western front," says Sir Douglas, "is in striking contrast to the forces of six divisions, comprising some 80,000 fighting men, with which we entered the war. That we should have been able to accomplish this stupendous task is due partly to the loyalty and devotion of our allies and to the splendid work of the royal navy, but mainly to the wonderful spirit of the British race in all parts of the world."

## Veteran Tells of a Terrible Experience

Before He Found Relief in Dodd's Kidney Pills

Postmaster of Hereford Points the Way to Health to Other Sufferers From Kidney and Bladder Trouble. Hereford, Que., April 14. (Special.) — "Mr. A. H. H. is a veteran postman who claims to have received a new lease of life through the use of Dodd's Kidney Pills."

"Dodd's Kidney Pills is in his 54th year, but wonderfully strong and active for one of his age. But he was not always thus. For many years he has been telling his story. 'I suffered from those sharp, stinging, lightning pains through my muscles, even to my finger tips. In March, 1917, I was taken with a shivering chill and gradually pain through my abdomen, groin, and the small of my back. I was confined to my bed for three weeks, during which time I often had to get up as often as twenty or thirty times a day. I tried many remedies, but got little relief till I tried Dodd's Kidney Pills. In three days I got relief, and three boxes cleared all the pains out of my system. I also rest much better at night. I am glad to tell other sufferers from kidney and bladder trouble what Dodd's Kidney Pills has done for me. I can't say too much for it. Ask your neighbors about Dodd's Kidney Pills.'"

**Newest Republic.** London. — The proclamation of a Soviet republic in Salzburg, Germany-Austria, is reported in an Amsterdam dispatch to the Central News.

## MAY FEED RUSSIA

£10,000,000 Monthly Required For Carrying Out of Problem

London. — Herbert Hoover, director-general of the inter-allied relief organization, has requested Dr. Fridtjof Nansen, head of the Norwegian food commission to the United States, to become chief of an international commission to investigate the possibility of feeding Russia on condition of the cessation of hostilities in Russia.

The dispatch says that £10,000,000 monthly will be required for the carrying out of the problem.

Amsterdam. — The visit to Paris of the Dutch financiers Van den Hooven and Ter Meulen, a local news agency says, has reference to the conclusion of a loan by neutral states to Germany of \$200,000,000. The loan is to be made under the supervision of the allies, and is for the purpose of restoring the economic situation in continental Europe. Swiss and Scandinavian bankers, it is added, are participating in the negotiations.

## FARM LABOR SCARCE

Working Conditions and Wages Are Both Good

Winnipeg. — There is a shortage of farm labor in the province this spring. It was learned at the Dominion-provincial employment service bureau here. There is much more demand for farm help than there is response, and J. A. Bowman, head of the bureau, said that requests for men had been sent to Vancouver and other Pacific cities as well as to St. John and Halifax.

Working conditions on the farms here are good, Mr. Bowman announced, and farmers are paying \$60 and \$65 a month.

## In British Soil

London. — Arrangements are being made, it is understood, for the removal of the body of Edith Cavell, the English nurse, executed by the Germans at Brussels in 1915, to this country. The interment of the body in British soil will be made the occasion of an extensive public ceremony.

# Trouble in Egypt Takes Serious Turn

## U. S. Credit to Belgium

Washington. — Credits of \$6,330,000 to the Czech-Slovak republic and \$900,000 to Belgium were established by the treasury. The Belgian credit related the total loans to the allies to \$9,016,230,000, and the total to Belgium to \$341,435,000.

## Brasil and Britain Sign Treaty

Washington. — Advice from Rio Janeiro to the state department report that an arbitration treaty has been signed by Brasil and Great Britain.

London. — Reuter's fears, that some apprehension is felt, that the trouble in Egypt, which was forestalled at the beginning entirely by Nationalist sentiment, may take a religious turn, and that the native tribes may declare a holy war against the British empire.

There is reason to believe that the natives may have been affected by Turkish propaganda, who are in no way friendly towards Britain. Steps are being taken to deal with this possibility.

The official press bureau issued the following statement:

"General Alliphan reports that a new ministry has been formed in Egypt with Hussein Ruchi Pasha as president of the council."

"The provinces are quiet, but demonstrations by the peasants have occurred at some places. There were disturbances in parts of Cairo on April 9, the feature being hostility towards Armenians by parties of roughs."

## Why Can't I Get To Sleep?

Thousands of people all over the country ask this question, but still continue to toss night after night on a sleepless bed, and it is impossible for some to get a full night's refreshing sleep.

Some constitutional disturbance, weak or diseased nerves, indigestion and irritated the nervous system that it cannot be quieted except by the use of a powerful sedative or narcotic. Or again, you have heart palpitation, and sensation of sinking, a feeling you are going to die, or perhaps you wake up in your sleep feeling as though you were about to choke or smother, and the only way you can get relief is to sit up in bed.

To all who suffer in this way, Milburn's Heart and Nerve Pills offer an irrefragable cure. They bring back the much-needed night's rest by improving the tone of the nerves, strengthening the heart, enriching the blood and making the whole organism act in harmony—then you can go to bed as a child.

Mrs. Jas. Latimer, 29 Leicester St., St. John, N.B., writes: "At night I could not sleep. I had to sit up in bed. I walked up stairs I would get all out of breath. A friend recommended Milburn's Heart and Nerve Pills and after using two boxes, I can sleep all night and am not out of breath after walking."

Milburn's Heart and Nerve Pills are for a box at all dealers, or mailed direct on receipt of price, by The Milburn Co., Limited, Toronto, Ont.

**London Will Observe Anzac Day.** London. — On Anzac Day, April 25, there will be a triumphal march of Australian troops through the city. The detachment will number 5,000 men, who will march from the West End, passing the Mansion House, where the Lord Mayor will take the salute.

## Grain Steamers Will Use Rhine

Berlin. — An Anzeiger has been made with the allies by which merchandise for Switzerland, coming from across the Atlantic, will pass in Rhine, Hungary and Germany or Basel. Consequently the next grain steamers for Switzerland will go to Antwerp.

THE BREAD LINE

## Who's In The Bread Line?

There would be no bread lines in the big city if we who live in the country towns did our duty by one another. You and I can do our part to break that bread line—to break up that appalling condition in which men must beg or starve. Remember the bread line of the big city is recruited from the country towns. Our country can solve this problem. Industry should be plentiful in the country towns. But industry can't flourish here if we send our money to build up the big city. If all of us all the time spent all of our money in our home town there would be no bread lines in the big city. Each home town would then take care of its own. Let you and me do our part.

## Troops Threatened Mutiny

American Infantry Refused to Fight Bolsheviks

Washington. — The war department has issued an official statement, confirming Associated Press advice from Archangel that what amounted to a mutiny occurred among the American troops there on March 30. A company of infantry, the message stated, refused to entrain for the front until personally required to do so by Col. George Stewart, commanding the American contingent. Open threats were made of a general mutiny unless a definite statement from Washington issued an early withdrawal was forthcoming.

## New Use For Poison Gas

Paris. — Poison gas that worked such havoc during the war will be utilized for a very far different and beneficial purpose in the future, it is announced in scientific circles. Gabriel Bertrand, of the Pasteur Institute, informed the Academy of Sciences that he had discovered a method by which such gas might be supplied for the destruction of caterpillars and injurious larvae which had worked destruction of tree growth in the country districts during the past few years.

## Must Pay For Hotel

Crown Owes Rent For Property Occupied for War Purposes

London. — The court of appeals, by a majority, has allowed the appeal of De Keyser's Hotel, London, in a test action against the crown, who had requisitioned the premises, for payment of rent and for compensation during nine months occupation by the crown. It was argued that the King was empowered to take a subject's property for the defence of the realm without payment. The master of the rolls decided there was no prerogative right to seize his property for administrative purposes in connection with the defence of the realm without indemnifying the owners.

## Huns Cannot Pay For Food

Berlin. — The shortage of coal, owing to the fact given officially as the reason for Germany's inability to continue payments for entente food supplies now arriving, since food was chiefly relied upon as a means to solve this indelicacy. The announcement added that coal production continues to fall, preventing the manufacture of articles wanted abroad. "German economic life must collapse before autumn, and the food condition will be worst than ever."

## Fall of Odessa

## Will Aid Bolsheviki

Paris. — The chief cause of anxiety in connection with the evacuation of Odessa by the allies and its occupation by the Bolsheviki lies in the fact that most fertile regions of southern Russia have fallen into the hands of the Bolsheviki forces, giving them immense resources of grain, coal and minerals.

The reason for the allies' retirement was the constantly increasing presence of the Bolsheviki against the allied garrison, which was able to maintain its supplies with the greatest difficulty. The commander thereupon decided to withdraw his troops, numbering approximately 50,000. The troops retired to Rumania and Constantinople.

The situation in Rumania and Poland is far from reassuring, even with these additional troops to help form a cordon against the spread of Bolshevism. Both Rumanians and Poles require the largest measure of aid from the allies providing them with food, military equipment and organization. It is regarded as essential to complete quarters that German Haller's Polish divisions should be hurried eastward as soon as possible, for, otherwise, it is pointed out, there is a possibility of the formation of a great Bolshevik block consisting of Russians, Hungarians and Germans, which would be so powerful that immense forces would be required to resist it.

Statements of various countries gathered in Paris, discussed the Odessa question with considerable acquiescence and it was explained that it would form the subject of discussion among the delegates to the peace conference.

# Ex-Kaiser Will Be Brought To Trial

Paris. — The responsibility of the German emperor for the war and the means for bringing him to trial by one of the allied governments, probably Belgium, had been definitely decided upon by the council of four. This follows the definite decision on the terms of reparations for war damages, whereby \$5,000,000,000 must be paid within the next two years, and an inter-allied committee to assess the remaining damage for a period of thirty years, beginning May, 1921.

Thus, two of the great obstacles which stood in the path of the rapid attainment of peace have been removed, and the period of extreme tension over the inaction and the failure to secure tangible results has succeeded by revived confidence over the great advance towards a permanent settlement.

The council of four has reached an agreement on the Saar valley. The valley unchanged but accords to agreement leaves sovereignty over France free of duty sufficient cost for the Lorraine iron industry and to replace the production of the mines.

destroyed in the Lens mining district, with the privilege to the Germans of restoring Lens mines and thus relieving the Saar valley of that charge.

This agreement removes one of the most difficult obstacles to the peace for the war zone.

While the tension has been greatly reduced, it is not entirely removed, thus relieving a number of lesser issues which are still short of final agreement.

The agreement on responsibility for the war issue continued to have called for compromise between divided reports presented by the commission, of which Secretary Lansing is chairman. There was a practical agreement on the general responsibility of the German emperor for bringing peace on the way, but division occurred as to whether it was feasible to bring him to justice before an international tribunal.

Life, Fire and Hail Insurance, Real Estate Money to loan.

Agent for Grain Growers Securities Land-Co.

**A Word In Season**

We have heard of towns having heavy penalties to pay on account of damages sustained by delapidated sidewalks. A broken board in the sidewalk cost one town several hundred dollars. A word to the wise is a sufficient.

Reader, when you are preparing to come to town to do some shopping just pick up your home paper, glance at the advertising columns and see who wants the trade. We guarantee they will save you money. The man who advertises certainly his inducements to offer or he wouldn't ask you to call and see him before buying.

The time of making garden is near at hand and it is also time to pen up the chickens. There is perhaps, nothing that causes so much hard feelings in a locality as for chickens to wander on a neighbor's premises and garden. A hen that will not stay in the enclosure will usually make a fine dinner.

**What's the Trouble with the Oyen Automobile Club**

Last year a good many car owners in Oyen and district got together and organized an auto club. Apart from the organization meeting we have not heard of anything that the club has done. Now is the time for the members to get together and see if something cannot be done in getting the roads repaired in the district.

Parties visiting a printing office should bear in mind that it is just as ill-mannered to look at a proof sheet or read the type as it is to go into the kitchen and look into the pots and see what they are going to have for dinner.

**EXCEL ITEMS**

Mrs. McCleod and her son returned to their farm last week.

Quite a number of wells have been bored around Excel lately, and in most cases a plentiful supply of water has been found.

Miss Gladys Barn left Excel for her home last week. Her position at the post office has been filled by Miss Annie Caldwell.

Ain't it a grand and glorious feeling—after you have been trying in vain to find your lost horse for several months, and have offered a reward and everything else to entice the brute home. Then one bright day you hear that a relative has found him and put him in their corral. So your horse is returned to you safe and sound. Hurrah! Then you hear a whisper reminding you of the promised reward, and you feel the truth of that famous quotation of—of—Shakespeare, wasn't it?—which says, "Someone is always taking the joy out of life."

On Monday, April 14th, several of the friends and well-wishers of Mrs. Howard met together to spend a social evening with her before her departure to California. Mrs. Schragg generously lent the hall for the occasion as it was the only available building large enough for the purpose. Every one entered heartily into the game until about 12 o'clock, when a splendid supper was served, after which the fun started again and continued till nearly train time, when a large number of friends accompanied Mrs. Howard to the station to see off. Her brother, Sigist Watrous, accompanied her as far as Youngstown.

Miss B. Hunter of Saskatchewan was the guest of her sister Mrs. E. P. Barbour during the Easter holidays.

Fairgroves Methodist Church W. F. Smith, Pastor Services Sunday, April 27th, will be as follows: Wenger Heights 11 a.m. Glensda - 3 p.m. Rushchetre 7.30.

BORN—To Mr. and Mrs. Brand, of Acadia Valley, on Tuesday, April 15th, a daughter.
